APP PRICING · EARLY CLIENT SALE

Your website, as an app.

An app your customers keep on their phone, built around what you already offer on your website. Every project gets a fixed quote, agreed before any work starts.

High Street Apps

Starter

Your existing website content, in a polished iPhone app.

~~£3,000~~ 25% off

from **£2,250**

- Menus, services, prices and opening hours
- Bookings and links into your current systems
- Maps, directions and tap-to-call
- Published on the App Store

Good for: cafés, shops, venues and local services.

Standard

For businesses with regulars, members or subscribers.

~~£6,000~~ 35% off

from **£3,900**

- **Everything in Starter, plus:**
- Customer accounts and logins
- Loyalty cards, memberships or passes
- Push notifications for offers and reminders
- Android version or web app

Good for: gyms, climbing walls, multi-site cafés and box schemes.

Custom

When the app is part of how you run the business.

~~£12,000~~ 50% off

from **£6,000**

- **Everything in Standard, plus:**
- In-app payments and ordering
- Apple Watch and other devices
- Integrations with your booking or stock systems

Good for: ordering, subscriptions and bespoke tools.

Monthly upkeep

from **£100**/month

Hosting, security and bug fixes, updates for each new iOS release, App Store management and small changes whenever you need them.

How it works

1. **Free concept**
   A mockup of your app before you spend anything.
2. **Fixed quote**
   We agree the features, then I send one fixed price.
3. **50% to start, 50% at launch**
   You see progress along the way and pay the rest when it's live.
4. **Launch and look after**
   Published under your business name, then kept up to date.

Recent work

Gaffer Live on the App Store
Team manager for small-sided football: availability, fair subs, live scoring on iPhone and Apple Watch, highlight clips and stats.
See it on the App Store →

The Little London Vegan Working demo
iPhone and iPad guide to vegan food in London, built on the website's existing accounts and content: live map, filters and member perks.

Early client sale: up to 50% off while I take on my first few business clients, in exchange for a short testimonial and permission to show the app in my portfolio.

"From" prices are a starting point; your quote depends on the features you choose. Apple charges a separate developer fee (£79 a year) so the app is listed under your own business name.

Interested?

Just reply to my email with what you'd like the app to do, and I'll send a fixed quote.

WEBSITE UPGRADES · OPTIONAL EXTRA

A new website to match.

If your website is starting to show its age, I can rebuild it alongside your app. One system runs both, so your opening hours, prices and bookings stay the same everywhere.

Website refresh

A new design built on your existing content.

from **£1,200**

- A fresh, modern design for your business
- Your current pages and content, rewritten where it helps
- Fast, secure and works on every phone
- Ready in 1 to 2 weeks

Good for: sites that work but look dated.

Website rebuild

A new site that does more for you.

from **£2,500**

- **Everything in Refresh, plus:**
- Online bookings, a shop or memberships
- Connected to the same system as your app
- Easy for you to update yourself

Good for: businesses that take bookings or sell online.

App + Website

Any app tier with either website.

~~£3,450~~ 15% off

from **£2,900**

- 15% off the combined total
- One system powering both, so you update things once
- Designed together, so they look and feel the same
- One quote, one launch

Example: Starter app + Website refresh.

Website upkeep

add **£50**/month

Added to your app upkeep. Covers hosting, security updates and small edits to your website whenever you need them.

Bundle examples

PACKAGE	SEPARATELY	BUNDLE
Starter app + Refresh	~~£3,450~~	£2,900
Starter app + Rebuild	~~£4,750~~	£4,000
Standard app + Refresh	~~£5,100~~	£4,300
Standard app + Rebuild	~~£6,400~~	£5,400
Custom app + Rebuild	~~£8,500~~	£7,200

Why do both together?

1. **Update once**
   Change a price or your hours in one place and it shows on your app and your website.
2. **One login for customers**
   Members and bookings work the same on the web and on their phone.
3. **A consistent look**
   Your website and app are designed side by side, so they feel like one brand.
4. **Less to manage**
   One person to deal with, one monthly fee, one place for changes.

Website prices are "from" prices; your quote depends on the pages and features you need. Bundle prices use the early-client app prices on page 1. Same terms: 50% to start, 50% at launch.

Want a new website too?

Just mention it in your reply and I'll include it in your fixed quote.
